

BI Office Nested Sorts with N of N Filtering

BI Office Data Discovery enhances filtering by using N-of-N and nested sorts. An N-of-N report is one that displays a filtered set of items from one dimension attribute, iteratively generated against another filtered set from a different dimension attribute. With BI Office go beyond filtering just the first attribute, but also use it to filter the results of a second attribute.

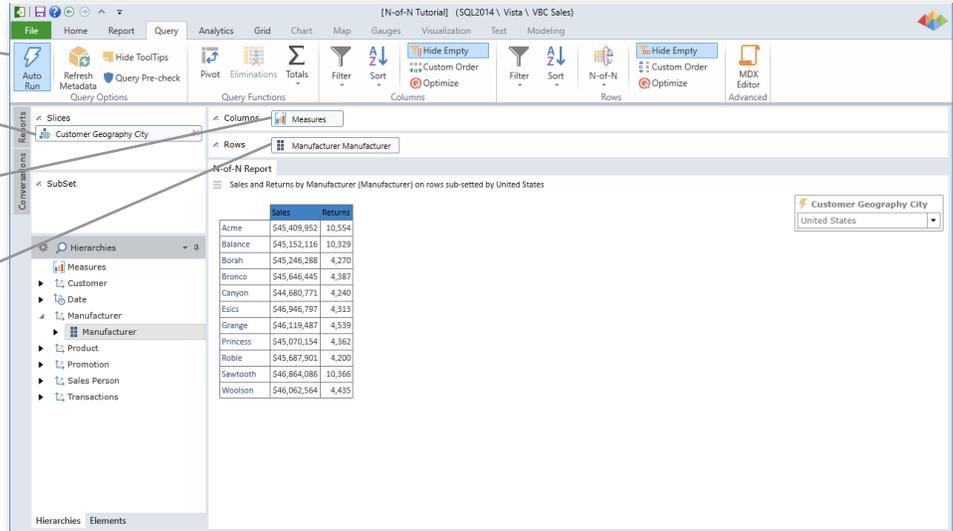

Query Setup in Data Discovery

Set up your query.

Include a **slicer** to make the N-of-N report more **dynamic** .

Select **measures** and put them on **columns** , in a **slicer** , or in a **subset** .

Put the first **attribute** of interest on rows.

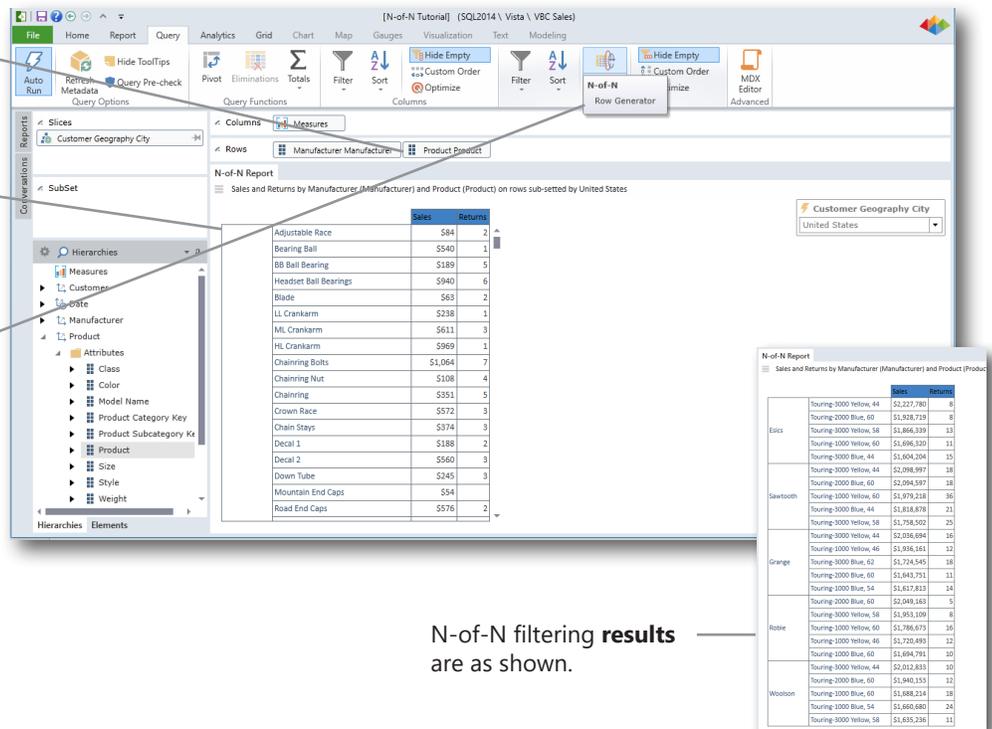

One-Click Default Filter

Drag and drop another attribute onto **rows** to **nest** it alongside the other attribute.

A large **grid** is the result.

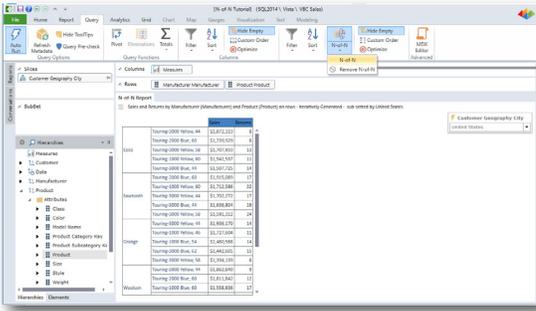

To simplify the grid, **filter** the first and second **attributes** to only show the top 5 by using N-of-N filtering.

Apply **N-of-N** filtering with one click. This automatically filters the **top 5** for each attribute.

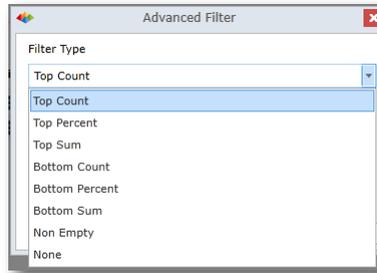

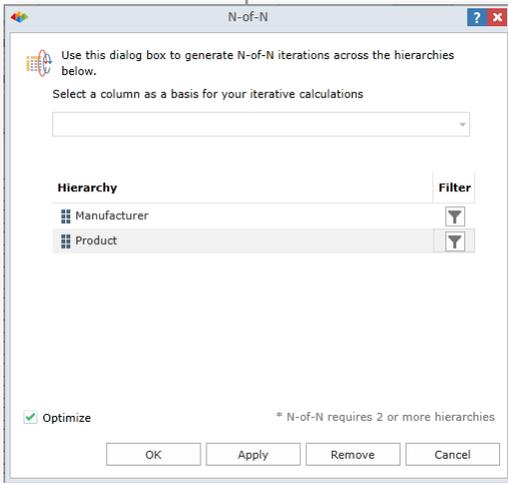

N-of-N filtering results are as shown.

Customize the N-of-N Filter

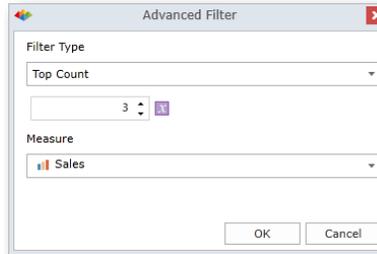

Edit the N-of-N filtering so that the top 5 is shown for the **first attribute** by the **first measure** and for the **second attribute** by the **second measure**.

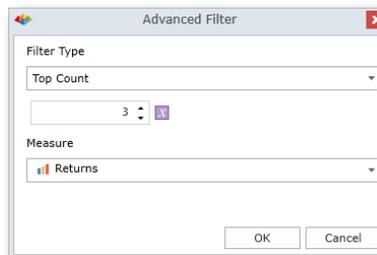

Define specific filtering in the N-of-N edit menu.

Choose a **top** or **bottom** filter and any **measure** to filter. Also choose a specific **column** for filtering.

Choose **top 3** for the first attribute based on the first measure.

Choose **top 3** for the second attribute based on the second measure.

Run the query to see the grid filter the **top 3** for the first attribute and its measure with the **top 3** for the second attribute and its measure.

		Sales	Returns
Esics	Touring-3000 Yellow, 44	\$2,227,780	8
	Touring-2000 Blue, 60	\$1,928,719	8
	Touring-3000 Yellow, 58	\$1,866,339	13
Sawtooth	Touring-3000 Yellow, 44	\$2,098,997	18
	Touring-2000 Blue, 60	\$2,094,597	18
	Touring-1000 Yellow, 60	\$1,979,218	36
Grange	Touring-3000 Yellow, 44	\$2,036,694	16
	Touring-1000 Yellow, 46	\$1,936,161	12
	Touring-3000 Blue, 62	\$1,724,545	18

Use the **slice** for the N-of-N report to see a **unique list** of attributes and their measures for each country.

		Sales	Returns
